

TINte Cosmetics Created the look for the Red Carter Models at Mercedes-Benz Fashion week Swim 2010.

TINte Cosmetics created a natural and glowing look for the Red Carter show last night at the Bass Museum in Miami Beach.

Since the collection had an amazing pop art feel TINte Cosmetics went natural with the cosmetics they used. Celebrity makeup artist Hillary Fenton lead the team of TINte makeup artists to create a look fit for Red Carter.

The focus on the face was glowing and dewy. We achieved this look by using our Vanilla Sky and Sun Kissed Shimmering Face Pearls. These shimmers give you a soft shimmering glow that works for everyday and on the runway. We also paired these shimmers with our Cream Soda Flavored Lip color that is available in our Painted Lady Kit. The Cream Soda is a sheer clear gloss and mixed with the Shimmering face pearls it gave the models a soft glossy pout.

Eyes- On the eyes we used both of our Match Book kits in Natural Beauty and Smoky Eyes. We washed the natural beauty colors all over the eye and added our Smoky Eye kit shadow right along the top lash line. Mascara was applied just to the top lashes which gave the Red Carter models a stunning look on the cat walk!
